Professional Summary

Software Engineer with extensive experience in .Net Core, SQL, and RESTful APIs. Highly skilled in working with platforms like WordPress and Shopify, where I have successfully developed, customized, and enhanced projects to improve performance and functionality. Adept at initiating projects from scratch and optimizing existing ones to deliver outstanding results. Specialized in creating seamless e-commerce solutions and maintaining high-quality standards in every project. Known for collaborating effectively with cross-functional teams to deliver innovative solutions that consistently exceed project objectives.

EDUCATION

Bachelor of Computer Science from the Faculty of Computer Science and Management Technology, Modern Academy-Maadi.
Class of 2022.

Graduation Project
A website helps people to donate blood or if they need blood and helps hospitals to know if there is any shortage of blood bags in any hospital or any governorate to direct people to donate to those wallets and hospitals, the main technologies used in the project were asp.net and angular, my role was the team leader also responsible for the Backend side so I used C#, SQL, Asp.net to build the database and the APIs.
